

# DOMETIC FRESHLIGHT 1600 / 2200

Roof air conditioners with roof window, for vehicle lengths of up to 6 m or 7 m

- Roof window with active ventilation system and single-pleated darkening screen
- Energy-efficient cooling mode and heat pump system for heating mode
- Individual air flow regulation with automatic blower control
- Temperature and blower speed can be conveniently set by remote control
- Control panel with integrated, dimmable LED lights
- Cooling capacity FreshLight 1600: 1550 Watt / 5300 Btu/h  
Cooling capacity FreshLight 2200: 2200 Watt / 7500 Btu/h
- Heating capacity: 2050 Watt / 2700 Watt

The window lets natural light stream into the vehicle

## REMOTE CONTROL

Many functions are convenient to use by remote control: ON/OFF, preferred room temperature, climate mode, blower level, sleep function, timer function, lighting ON/OFF, etc. The digital display shows the settings which have been selected.

A patented distribution system steers cool, dehumidified air in the required direction without dust and dirt.

In the active ventilation mode, stale air is drawn powerfully out of the room. Fast air circulation guaranteed!

Two LEDs with dimmers are built into the air diffuser unit and ensure pleasant lighting.
